NORTHERN INDIANA SAND-GROWN GLADIOLUS BULBS

LUCKY GARDENS Gladiolus Bulbs are finding more and better favor with growers everywhere. Each year finds increased business, many repeat orders from old customers and many new customers added to our list - customers who know what it means to receive quality, disease-free, clean, golden high crown bulbs, that are properly cured and graded to correct size or larger.

For your protection, and for the betterment of the bulbs we ship to you, we have fumigated every bulb with CYANOGAS. According to the manufacturers of Cyanogas: "Experiments have shown that bulbs fumigated with Cyanogas usually start blooming from 3 to 5 days earlier than those not treated." At any rate, bulbs treated with Cyanogas do not contain thrips or several other species of insects.

We are an established firm growing bulbs. Gladiolus have long been our specialty. We take pride in producing better stock and being able to supply the trade with what is expected - and more. Letters from our customers regarding the results they obtained from our bulbs are sincerely appreciated, and we favor any correspondence you may wish to send us. We are not a large grower (ten acres this year), but we can assure you of individual attention, good bulbs always and good service.

Let us furnish you with your supply of Gladiolus Bulbs for more profit to you! Grow your own, have your own blooms, know what you have and have it when you want it! No disappointing and losing customers because of delay in shipments, or, with bad stock that you feel ashamed to sell! Get in the swim, don't depend on others, make that extra profit count on the right side of the ledger! Here's our wholesale list for Fall of 1939 and Spring of 1940. Cancels all previous lists; subject to prior sale. Write for bulblet prices.

BULBS PRICED PER 100, F.O.B. KNOX, INDIANA. VARIETIES MARKED WITH * CAN BE SUPPLIED BY THE 1000 FOR 8 TIMES THE 100 RATE. 50 BULBS AT THE 100 RATE; ADD 20% FOR SMALLER QUANTITIES. LUCKY GARDENS

RTE. 2, KNOX, IND.

DEAR CUSTOMER:

Just a kindly reminder that you should replenish your supply of that remarkable soil conditioner, LUCKY GARDENS LEAF MOLD OF MERIT, now that the Fall and Winter season is upon us again, which, of course, means more planting to be ready for the Holidays that are coming, and means more profit too, if we have quality stock. As you have used LUCKY GARDENS LEAF MOLD in the past and know of it's fine quality and essentiality in seed-beds, seedlings and pot plant growing, we assume that you will need your usual winter supply.

There are a number of reasons why you should order now instead of later, namely, the weight of our Leaf Mold is at a minimum now, due to extreme dry weather, which means less carrying charges to you (Leaf Mold takes a fourth class freight rate); the assurance of prompt attention to your order at this time, whereas, when the usual Winter rush begins, coming with the snow and freeze, we are unable to make prompt shipment, which may mean a costly delay in getting those plants and flowers to hit the Holiday period as you will want them to; also, Leaf Mold does not deteriorate with age or waste away in storage. So, don't delay, get that order in now, have it when you need it most, let's go for a mutual satisfaction and get ready for Old Man Winter before the snow and blow.

Below our wholesale prices, f.o.b. Knox, Indiana. Write for quantity and carload prices and our own truck delivered prices.

Large Sample Bag	\$1.00	30 Bushels	\$10.00
10 Bushels	3.50	50 Bushels	15.75
21 Bushels	7.00	100 Bushels	28.00

(Screened and put up in strong burlap bags.)
